EDUCATION

University of Transport and Communications

Bachelor of Information Technology — GPA: 3.4 / 4.0

Hanoi, Vietnam

2023 – Present

EXPERIENCE

Technical Lead & Mentor

SFIT Club – Technical & Cloud Committee

2023 – Present

Hanoi, Vietnam

- Planned and coordinated technical workshops on DevOps and cloud technologies for club members
- Mentored junior members in programming fundamentals and project-based learning
- Organized coding events and promoted hands-on infrastructure and deployment practices

PROJECTS

Full project demos, videos, and source links available at duckcy.me

Investor AI | *Spring Boot, React, Airflow, Docker, Spark, PostgreSQL, Redis, MinIO, CUDA*

2024 – Present

- Architected a stock analysis & prediction platform across **12 containerized services**, automating **13 Airflow DAGs** for daily ETL and LLM-based financial report analysis with GPU-accelerated LSTM training via CUDA

Classes369 | *Flask, SQL Server, Docker, Python, GenAI*

2024

- Delivered an IT center management system with **17 API modules**, **3 user roles** (Admin/Teacher/Student), and an AI assistant with automatic model fallback — fully containerized in 3 Docker services

Robot Pathfinding Game | *Java 17, JavaFX, Maven*

2024

- Built an AI visualization platform with **3 search algorithms** (BFS, DFS, A*) and a **20-power-up inventory system** (~1,840 lines, <100ms modal latency, zero runtime crashes)

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL

Frameworks: Spring Boot, Flask, React, JavaFX

DevOps & Infrastructure: Docker, Docker Compose, Apache Airflow, Jenkins, GitHub Actions, Linux

Databases & Storage: PostgreSQL, SQL Server, Redis, Apache Spark, MinIO

Concepts: RESTful API, CI/CD Pipelines, ETL, Microservices Architecture, Git/GitHub
